

SOLAR GEOENGINEERING RESEARCH SEMINAR:

ESTIMATING GLOBAL AGRO-ECONOMIC IMPACTS OF GEOENGINEERING USING VOLCANIC ERUPTIONS AS NATURAL EXPERIMENTS

TUESDAY, APRIL 10, 2018

12-1:30 PM

LAND LECTURE HALL, 4TH FLOOR BELFER BUILDING, HARVARD
KENNEDY SCHOOL, 79 JOHN F. KENNEDY STREET, CAMBRIDGE

Solomon Hsiang

Chancellor's Associate Professor of Public Policy,
University of California, Berkeley

The fourth Solar Geoengineering Research Seminar, co-sponsored by the Harvard University Center for the Environment, the Weatherhead Center for International Affairs, and the Belfer Center's Science Technology and Public Policy program. Lunch provided. Formal seminars are interspersed with more informal weekly reading group meetings on Wednesdays to deepen members' understanding of solar geoengineering research. **RSVP:** Lizzie Burns, eburns@g.harvard.edu
